

Rubric

Score	Description
3	Student prepared an accurate and informative report about genes and gene expression. The report was well-constructed and contained few if any grammatical errors. The report incorporated information from a variety of sources, with citations.
2	Student prepared an accurate report about genes and gene expression, although the report may have been limited in scope or was poorly organized. Information was incorporated from more than one source.
1	Student prepared a report about genes and gene expression, but the report may have included significant content errors or extraneous passages. The information was limited and may have been gathered from only one source.
0	Students did not prepare a report about genes or gene expression, or the student was disruptive.
